# Introductory Textbook of Psychiatry, 7<sup>th</sup> Edition: Getting Started with your Institutional Subscription

Your Introductory Textbook of Psychiatry  
subscription includes access to:

	Persistent URL	Online ISSN/ ISBN	Print ISSN/ ISBN
Book Title			
Introductory Textbook of Psychiatry, Seventh Edition	<a href="https://psychiatryonline.org/doi/book/10.1176/appi.books.9781615373758">https://psychiatryonline.org/doi/book/10.1176/appi.books.9781615373758</a>	978-1-61537-375-8	978-1-61537-312-3

## Please note:

**Psychiatryonline.org** is the domain and platform for **all** American Psychiatric Association Publishing journals and DSM subscription products. The above persistent URLs are for your use in cataloging the individual titles. The URL for the complete collection is **www.Psychiatryonline.org**.

Please note that if you catalog the **Psychiatryonline.org** homepage and your institution only subscribes to the Introductory Textbook of Psychiatry, your patrons will see the other resources available from the site but will not necessarily have access to those resources.

American Psychiatric Association Publishing Journals are freely available 12 months after publication date to 1997. So even if your institution does not have a current subscription to the any journals, your library and patrons can still take advantage of the **Psychiatryonline.org** platform's powerful search capabilities across books and journals to discover articles and information on related topics.

If your institution also subscribes to any American Psychiatric Association Journals, please see below for the persistent URLs for cataloging:

- American Journal of Psychiatry – <https://ajp.psychiatryonline.org>
- Psychiatric Services – <https://ps.psychiatryonline.org>

## Administrator Functions

As an administrator, signing in to [www.psychiatryonline.org](http://www.psychiatryonline.org) provides you with the capability to perform management functions for your institution.

**Institutions using IP address for authentication:** Please note that accessing certain administrator profile menu items requires the administrator to either be authenticated by the username/password AND their institution's IP addresses, or the administrator can be authenticated by the username/password AND complete a two factor authentication prompt if they are accessing from outside of their institutional IP addresses.

If you require assistance or need to request an additional IP address be associated with your account, please contact us at [psychiatryonline@psych.org](mailto:psychiatryonline@psych.org).

Administrative options include the ability to manage IP addresses and/or other authentication method(s), generate COUNTER compliant usage reports, verify your institution's access entitlements, and customize branding for your institution.

- Verify your institution's access entitlements
- Generate COUNTER usage reports
- Manage IP addresses
- Manage OpenAthens information
- Add a link resolver
- Set up a Trusted Proxy Server
- Customize banner text or add institution logo
- Manage Mobile Pairing

## New Customer Setup

If you are a new institutional customer to American Psychiatric Association Publishing, you should receive an email providing instructions for creating and activating your institution's Administrator account. This email is sent to the administrator's email address that was supplied with your order and goes out after the subscription has been processed. If a new user account should need to be created, you will receive an email asking that you verify your email address by clicking on the link therein. Once your administrator account has been successfully activated, you will receive a confirmation email. You may now sign in to [www.psychiatryonline.org](http://www.psychiatryonline.org) and enter the administration area by clicking on either "MyPOL" or the administrator's name displayed in the upper right hand corner.

## Login Process

1. Use your admin credentials to sign in to the POL site (<https://psychiatryonline.org>) and enter the administration area by clicking on either "MyPOL" or the administrator's name displayed in the upper right hand corner.
2. If you have forgotten your administrator password, please click on the "Forgotten your password?" link to reset your password. This link is located beneath the username and password dialogue on the sign in page.

## Usage Reports:

1. COUNTER usage reports from November 1, 2014 to present may be generated by choosing your desired selection criteria beneath the “Delivery” heading. If you utilize SUSHI for harvesting reports, please note *our* SUSHI request URL, *your* unique Requestor ID, and *your* CustomerReference ID. This information is found toward the top of the Usage reports section page.

The screenshot shows the 'Institution Administration' page. On the left is a sidebar menu with options: Personal Details, Access entitlements, Redeem Voucher, Alerts, Favorites, Saved Searches, Device Pairing, Access Entitlements, **Usage reports** (highlighted), IP Ranges, OpenAthens, Link Resolver, and Trusted Proxy Server setup. The main content area is titled 'Usage Reports' and contains three sections: 'SUSHI DETAILS' with fields for 'Our SUSHI request URL is:' (https://psychiatryonline.org.app-test.literatumonline.com/api/soap/analytics/SushiService), 'Your Requestor ID is:', and 'Your customerReference ID is:'. Below this is the 'E-MAIL NOTIFICATIONS' section with a checked checkbox for 'E-mail when COUNTER usage data for the current month has been processed and is ready for reporting.' and an 'Update settings' button. The 'DELIVERY' section is partially visible at the bottom with the text '1. SELECT RANGE:'.

2. If you would like to receive an email reminder to inform you of when statistics for the current month are available, check the box under the “E-mail notifications” heading.

### E-MAIL NOTIFICATIONS

- ☒ E-mail when COUNTER usage data for the current month has been processed and is ready for reporting.

[Update settings](#)

For more information on our usage reports, please see our [Usage Reports Guide](#).

## IP Ranges

1. IP information can be verified or updated as needed by clicking on the “IP Ranges” section heading.
2. Under the heading “Add new IP range(s),” you may enter a single IP address or an IP range into the field labeled “IP ranges.” Examples of formatting are provided for entering IP ranges. A description can also be provided for the new entry within the “Description” field. Example: “University of Testing - Proxy IP”.

### IP Ranges

(For your information, the IP address of your current internet connection is: 50.236.221.182)

#### ADD NEW IP RANGE(S)

Description	<input type="text"/>
IP Ranges	<input type="text"/>

ADD IP RANGE

Examples: 101.23.\*.\* or 128.23.12.\* or 132.10.30-40.\* or 112.12.11.15:112.12.12.36

3. Click “Add IP range” button.
4. New IP will now appear below under the heading “Update existing IP range(s).” (See next screenshot for example.)
5. To update a description, make a correction, or delete an entry, check the appropriate box that corresponds with the IP address entry you wish to modify. Make any desired changes within the description and IP range fields. Last, click the “Update checked” or the “Delete checked” button as appropriate.

#### UPDATE EXISTING IP RANGE(S)

	Description	IP Ranges

<input type="radio"/>	<input type="text"/>	<input type="text"/>
<input type="radio"/>	<input type="text"/>	<input type="text"/>
<input type="radio"/>	Ignore conflicts	

Update checkedDelete checked

[Show the IP Ranges](#) and identities currently assigned to me through this connection.  
[Email me](#) my IP addresses for my records.

## OpenAthens

1. Enter your OpenAthens Identity Provider URL into the Shibboleth Entity ID field. Please note that we currently only support OpenAthens. We do not support Shibboleth at this time.

**OpenAthens**

**Entity ID**

**Organization/Unit ID (optional)**

**Update**

Please note that you will need to enter an Organization/Unit ID for your institution **only if it is a member of a larger organization such as a healthcare trust**.

If your institution's entry in [this list](#) has **no** value in the "Consortium or top-level organization" column, you should **not** enter an Organization/Unit ID value, or you will disrupt access for your institution.

2. Only enter your Organization/Unit ID if your institution is a member of a larger organization such as a healthcare trust. If your institution's entry in [this list](#) has **no** value in the "Consortium or top-level organization" column, then you should **not** enter an Organizational/Unit ID value, or you will disrupt access for your institution.
3. Select "Update" to complete.

## Referrer URL Authentication

A referrer URL authentication setup consists of a secure webpage on your website that contains a link(s) to PsychiatryOnline subscription content. When an authorized user visits [www.psychiatryonline.org](http://www.psychiatryonline.org) from your secure webpage, their browser transmits the URL of the referring page (referrer URL). Our system performs a check to find a matching account record with the same referrer URL attached. If found, the session is authenticated and the user is granted access.

If you wish to use a referrer URL for authentication, please email the referrer URL to [psychiatryonline@psych.org](mailto:psychiatryonline@psych.org) with the subject header: Referrer URL for [institution name].

## Link Resolvers

1. Click Link Resolver.
2. Add your base URL in the designated box. Click “Update”
3. Enter button image location/filename under “Upload OpenURL button.”
4. Click “Update.”

The screenshot shows a web form titled "Link Resolver". It contains a "Base URL:" label followed by a text input field. Below this is an "Upload New Image:" section with a file selection interface showing "No file chosen" and a "Choose file" button. A note below the upload section states: "Note that the image height needs to be between 20 and 25 pixels high and the image width between 80 and 90 pixels wide." At the bottom of the form is a blue "Update" button.

## Trusted Proxy Server Setup

**For commercial proxy servers, such as EZProxy, do not use Trusted Proxy Server.** Instead, ensure that the proxy IP address is entered in the 'IP Ranges' section. If a base URL is available, please email the base URL to [psychiatryonline@psych.org](mailto:psychiatryonline@psych.org) with the subject header: Proxy URL for [institution name].

The trusted proxy option allows your institution to authenticate users locally (through your local website) and bypasses any need for the user to register or login at [www.psychiatryonline.org](http://www.psychiatryonline.org). You provide your server IP address and specify a URL (access link) to POL which users will access from your institution's website. In order to facilitate authentication, you will be required to install a trusted proxy script on your institution's website. After a user has signed in to your institution's website and clicks the access link, the user will be allowed access to subscription content at POL.

You may setup the trusted proxy in the “Trusted Proxy Server setup” section under your institutional account administrator options.

1. Enter the IP address or range for your institution's referring server.
2. If the IP provided is shared with multiple web-sites, then you will need to provide the domain to distinguish your site. This is entered in the “Optional domain” field.
3. Customize the banner text with your institution's name in the “Banner text” field.
4. Enter the URL to which users will be directed on POL. For a list of all resources, please visit: <https://www.appi.org/pol>
5. Enter the URL of your institution's error page in the event that authentication fails.
6. Select the programming language you wish to use for the trusted proxy script.
7. Click “Set up my Trusted Proxy Server and generate code”

- Save the script in a file format matching the language you selected.
- Provide the trusted proxy script to a person responsible for creating links on your website (usually the webmaster). The webmaster will save the file in a secure area and use the file name for the link to the accessible content.

**Institution Administration**

- Personal Details
- Access entitlements
- Redeem Voucher
- Alerts

### Trusted Proxy

**You are managing:**  
New Server

**Description**  
**IP address (or IP range) of your institution's server.**  
  
IP address from where the user will access the publisher site through TPS.

**through to**  
  
Leave blank if there is only one IP address.

**Optional domain**  
  
If IP address is shared with multiple web-sites, then an extra parameter 'domain' is needed to distinguish this site.

**Banner text**  
  
Normally this is a welcome message with the name of your institution

**URL of the journal to grant access:**  
  
URL of the List of Issues page of the journal

**URL of an error page if users fail to authenticate.**

## Managing Mobile Access

With an institutional subscription to PsychiatryOnline, users affiliated with your institution have the option to access your institution's subscriptions remotely (off-site) via a computer, tablet, or mobile device. PsychiatryOnline is a fully responsive site and will adapt to fit your viewing device. For step by step instructions on pairing a mobile device, please see [Mobile Access Guide](#).

### View and Manage Your Paired Devices

Under the My Account menu select "Device Pairing" to view and manage your paired devices.

**MY ACCOUNT**

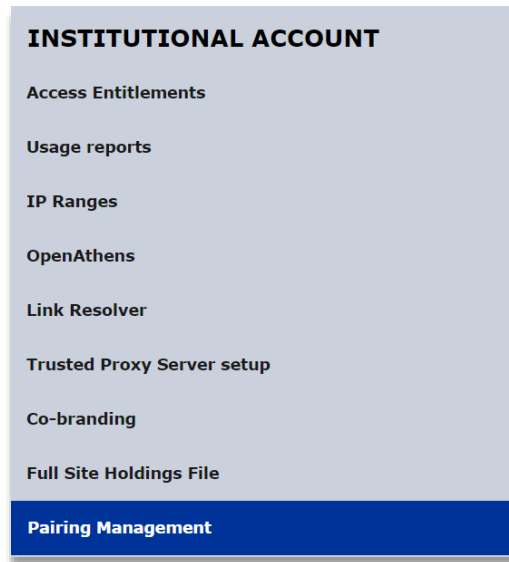

- Personal Details
- Access entitlements
- Redeem Voucher
- Alerts
- Favorites
- Saved Searches
- Device Pairing**

**PAIR A DEVICE**  
[Pair a new device](#)

**PAIRED DEVICES**  
There is no paired devices

## View and Manage Institutional Device Pairing

As account administrator, you have the ability to set pairing permissions at your institution. You can access this by selecting “Pairing Management” from the Institutional Account menu:

This will take you to the Pairing Management page, where you can enter the email domain for your institution (example: institution.edu). Setting the email domain will allow users with an email matching your institutional domain to pair a device

A screenshot of the 'Pairing Management' page. On the left is a sidebar with two sections: 'MY ACCOUNT' (containing links like Personal Details, Access entitlements, Redeem Voucher, Alerts, Favorites, Saved Searches, and Device Pairing) and 'INSTITUTIONAL ACCOUNT' (containing links like Access Entitlements and Usage reports). A red arrow points from the 'Device Pairing' link in the sidebar to the 'Email Domains' input field on the main page. The main page has a header 'Your Institution Name (Your APA Account Number)' and a 'Remote Access' section with an 'Email Domains' text input field and an 'Update' button. Below this is a 'Pairing Management' section with two filter areas. The first, 'FILTER BY EMAIL TYPE', has three radio buttons: 'All emails' (selected), 'External emails only', and 'Institution emails only'. The second, 'FILTER BY PAIRING PERMISSION', has three radio buttons: 'Any', 'Allowed' (selected), and 'Expired'.

On this pairing management page you can view all paired users for your institution. You can filter the list using the below settings:

Pairing Management

FILTER BY EMAIL TYPE

- All emails
- External emails only
- Institution emails only

FILTER BY PAIRING PERMISSION

- Any
- Allowed
- Expired
- Revoked

FILTER BY USER

Email:

Name:

FILTER BY LAST ACTION DATE

From:

To:

Refresh

With selected ▾Add external email

Email Address	Name	Last Action On	Pairing Permission
---------------	------	----------------	--------------------

From the list of users, you can remove pairing permission for any user who is no longer at your institution.

## Co-Branding

**Enter or update banner text:**

1. Click in the “Banner text” box and type your text.
2. Click “Update banner text” to show the new text.

[illegible]

### Change institutional logo:

1. If you wish to change the logo, enter logo location/filename under “Change institution logo”
2. Click “Upload institution logo.”

**Change institution logo**

Current institution logo

Remove logo

You can upload your institution logo, by selecting a file and clicking Upload. The uploaded image type should be JPEG, GIF or PNG and size should be at most 350x60 pixels.

Banner image file:

Browse...

No file selected.

### Linking to your institution:

1. If you want the logo to link to your website, enter the appropriate URL under “Linking to your institution.”
2. Click “Update.”

**Linking to your institution**

If you wish to provide for a link to your institution, please enter the url below. Users will be able to click your logo or your banner text.

**URL for Link:**

Update
