PSYCHIATRYonline

PsychiatryOnline.org is the platform for all American Psychiatric Association Publishing journals, DSM-5®,

and bestselling textbooks, as well as APA Practice Guidelines, and continuing medical education.

This is a one-stop resource for information on psychiatric diagnosis, treatment, guidelines, the latest research, and breaking news from the field. From a single location, users can search across all books and journals to find the most relevant content easier than ever.

Features & Benefits

ePub Journal Article

Journal articles are now available in ePub format, in addition to HTML, PDF, and PDFPlus. ePub format is also available for books in our eBook subject collections. Content in ePub format opens in the PsychiatryOnline Reader, an in-browser reader that automatically opens the title and is compatible with any viewing device. The PsychiatryOnline Reader allows for viewing features like content outlines, figures, tables, and links alongside the journal article or book chapter in one easy to navigate view.

Search

PsychiatryOnline has global search and browse options across books and journals. Tools are available to filter search results by title, type of content, topic and/or date.

Related Articles

On the article page, highly relevant additional resources will appear including related articles from journals, *Psychiatric News*, related chapters from books and DSM-5®, and related content from PubMed and other external sources.

Video

Journal editors discuss the decisions that led them to accepting various research papers and also highlight the clinical significance of content contained in each issue.

Intuitive Design

The site adapts instantly and intuitively to any device so it is easy to use whether you're on a phone, tablet, or computer.

Study Guide Enhancement—Coming Early 2022!

The Study Guides will be updated to an interactive quiz format. Users can enhance their knowledge of psychiatry by working through the multiple-choice questions and then access the relevant text in the corresponding textbook. Users can:

- Determine number of questions per quiz
- Determine what topics to cover
- Determine when to see the answers—during the quiz or after completion
- View testing history
- Retake a quiz

Journals

The American Journal of Psychiatry

Official Journal of the American Psychiatric Association

Editor-in-Chief: Ned H. Kalin, M.D.

The American Journal of Psychiatry is one of the most widely-read psychiatric journals in the world. Published monthly, it is an indispensable journal for all psychiatrists and other mental health professionals who need to stay on the cutting edge of virtually every aspect of psychiatry. Reviews and overviews help to prepare for recertification and original research provides information on the latest advances in diagnosis, treatment, neuroscience, and patient populations.

Features:

AJP in Advance

As part of the Journal's commitment to bringing the latest research to the field faster, research articles now appear online in advance of their appearance in a print issue.

Treatment in Psychiatry Series

Leading experts provide a hypothetical case vignette on a commonly encountered issue in patient care followed by a summary of the relevant research literature, plus offer recommendations of how to proceed with assessment and treatment.

AJP Audio

Each online issue includes a 30-minute downloadable .mp3 format program that contains highlights and selected findings from the issue.

Clinical Case Conference Series

Complements the Treatment in Psychiatry series by presenting actual patients (with disguised identities) who pose especially difficult or unique problems in diagnosis and treatment.

Residents Journal

Each online issue is also accompanied by a FREE electronic publication produced specifically by and for psychiatry residents to share ideas and experiences regarding training, clinical practice, research, and careers.

Psychiatric Services

A Journal of the American Psychiatric Association

Editor: Lisa B. Dixon, M.D., M.P.H.

Psychiatric Services, established in 1950, is published monthly by the American Psychiatric Association. The journal focuses on issues related to the delivery of mental health services, especially for people with severe mental illness in community-based treatment programs.

Each month, *Psychiatric Services* features 15 or more research reports with results that have practical applications in the diverse settings where today's practitioners work. The journal has long recognized that providing high-quality care involves collaboration among a variety of professionals. Authors of research reports include psychiatrists, psychologists, pharmacists, drug and alcohol treatment counselors, social workers, nurses, economists, and professionals in related systems, such as welfare and criminal justice systems.

Monthly columns keep readers up to date on important developments in areas such as law and psychiatry and

evolving best practices in service delivery. Issues feature book reviews, news, and letters to the editor. Every member of the treatment team will find *Psychiatric Services* a valuable source of information.

PS in Advance

Official published versions of articles are published online ahead of their appearance in a print issue. Upon online publication the article's metadata is delivered to the National Library of Medicine so that days later, the article is available in MEDLINE and discoverable via PubMed. This means articles now enter the scientific literature in weeks rather than months.

FOCUS

The Journal of Lifelong Learning in Psychiatry

Editor: Mark Hyman Rapaport, M.D.

Focus, APA's quarterly clinical review journal, is designed for practicing psychiatrists to keep abreast of significant clinical knowledge and advances in the field through self-directed lifelong learning. *Focus* is the best resource for clinical synthesis, expert guidance, lifelong learning, and maintenance of certification. Four issues each year provide comprehensive reviews of major clinical areas of psychiatry.

An annual subscription to *Focus* addresses core areas in psychiatry, with each issue overseen by a Guest Editor clinical expert in that area. This thought leader works with fellow experts and advisors to deliver an issue that keeps abreast of the field.

Each issue includes:

- Articles on best practices, new developments and the current state of practice

- Features designed to improve your ability to evaluate, diagnose, and manage clinical problems; communicate with your patients; and handle ethical dilemmas
- Curation of the important publications that have shaped clinical thinking in the field

The Journal of Neuropsychiatry and Clinical Neurosciences

The Official Journal of the American Neuropsychiatric Association

Editor: David B. Arciniegas, M.D.

Deputy Editor: C. Alan Anderson, M.D.

As the official journal of the American Neuropsychiatric Association, the society of psychiatrists working at the interface between neuroscience and behavioral disorders, *The Journal of Neuropsychiatry and Clinical Neurosciences* is dedicated to advancing effective diagnosis and treatment options for patients with neuropsychiatric disorders.

The Journal of Neuropsychiatry and Clinical Neurosciences publishes peer-reviewed articles addressing critical research areas such as Alzheimer's disease, traumatic brain injury, Parkinson's disease, epilepsy, and seizure disorders, and is devoted to reporting discoveries in clinical neuroscience that are relevant to understanding the brain-based disorders of patients.

The journal features original articles, concisely written clinical and research reports, perspectives on emerging trends in the field, and classic pieces from the field's rich history. Each issue

commences with the latest from the outstanding signature section "Windows to the Brain."

The American Journal of Psychotherapy

Editor: Holly A. Swartz, M.D.

The American Journal of Psychotherapy is a peer-reviewed, interdisciplinary journal published quarterly by the American Psychiatric Association. Begun in 1947 by the Association for the Advancement of Psychotherapy, *The American Journal of Psychotherapy* provides a forum for advancing the theory, science, and clinical practice of psychotherapy, publishing articles that expand the understanding of psychotherapies, especially in the domains of efficacy, process, education, and practice.

The journal publishes empirical papers on psychotherapy outcomes, process, measurement, and education. Maintaining a strong clinical focus, it welcomes case reports, review articles, and training tools that will guide and shape clinical practice.

The American Journal of Psychotherapy invites a broad range of perspectives from all psychotherapy disciplines, including but not limited to psychodynamic, interpersonal, cognitive- or dialectical-

behavioral, existential, emotion-focused, problem-solving, mentalizing, mindfulness-based, and client-centered approaches.

The American Journal of Psychotherapy inclusively addresses topics across treatment modalities, age groups, genders, races and ethnicities, and diagnoses. The journal serves the international community by curating a vibrant, pluralistic, dialogue about psychotherapy that ultimately will inform clinical care.

Psychiatric News

The Official Newspaper of the
American Psychiatric Association

Editor-in-Chief: Jeffrey Borenstein, M.D.

Psychiatric News is the “one-stop” source of information for busy psychiatrists and mental health professionals. Each issue covers major news and developments on clinical and research topics that can help inform your patient care decisions. It also keeps you updated on related areas — such as federal and state laws and regulations, Medicare and Medicaid, court cases, and health care economics — that affect your practice. Clinical and research coverage includes reports on the latest developments in the full range of psychiatric disorders, as well as in psychopharmacology, psychotherapy, and other treatments.

Psychiatrists and mental health professionals are barraged with information and news from many sources each day, both electronically and through the mail. What’s important and what’s not? You won’t have to worry about answering that question if you subscribe to *Psychiatric News*. It is an absolute must-read for those who need to stay abreast of events in psychiatry as they happen.

Beginning with the January 2021 issue, *Psychiatric News* will be published monthly instead of twice a month. This change is being accompanied by an increase in in-depth reports on clinical and research topics, including articles written by APA member subject matter experts, while continuing to cover advocacy activities, professional initiatives, and educational services.

Psychiatric Research and Clinical Practice

Edited by: Kimberly A. Yonkers, M.D.

Psychiatric Research and Clinical Practice (PRCP) is a new open access journal from the American Psychiatric Association Publishing that offers a high-profile publishing destination for peer-reviewed research that builds upon the psychiatric knowledge base and brings research findings closer to clinical utility through deeper investigation.

Research published in *Psychiatric Research and Clinical Practice* covers all aspects of mental and behavioral health to inform the field from bench to bedside. *PRCP* seeks to occupy that place between research and clinical utility, leaning toward clinical utility through publication of replication studies and features that show how new scientific knowledge can inform clinical practice. The Journal will also feature “Clinical Pearls”—accounts by clinicians using the findings from the most up-to-date clinical research to help solve problems commonly confronted in clinical practice.

PRCP represents a wonderful addition to APA Publishing’s portfolio of journals, maintaining the high standards of APA’s publications with regard to rigor and review while providing an additional tool that allows physicians to practice their craft and do the best they can for their patients. Published in accordance with open-access principles, *Psychiatric Research and Clinical Practice* makes all of its content immediately available for free to the world—the reach one wants from a publisher everyone knows.
